Survey

January 5, 2019

- Are you an undergraduate, Masters or PhD student? What year?

- What is your major/graduate program/department?

- What are you hoping to learn from stat598z, broadly?

- Are there any specific topics you wish to cover?

- How familiar are you with the R programming language? What other languages do you know?

- Have you previously taken a course with a programming project? What was the project title?

- Please mention any concerns you might have (if any) about this course
